- **Frameworks & Libraries :** Django, Django REST Framework (DRF), Bootstrap 5
- **Frontend Technologies :** HTML5, CSS3, JavaScript, Django Template Language (DTL), Responsive Web Design
- **Backend Development :** Python Django, REST APIs, Authentication & Authorization, Form Handling, Server-side Development
- **Database Technologies :** MySQL, SQLite3, Django ORM, CRUD Operations, Database Design
- **Tools & Platforms :** Git, GitHub, VS Code, Debugging, Testing
- **Concepts :** MVT Architecture, MVC Basics, SDLC, Problem Solving, Troubleshooting, API Integration
- **Operating Systems :** Windows, Linux Basics

Education

BACHELOR OF TECHNOLOGY (B.TECH) | 2021 - 2025 COMPUTER SCIENCE AND ENGINEERING

Mount Zion College of Engineering, Pathanamthitta, Kerala
Affiliated to APJ Abdul Kalam Technological University (KTU)

Projects

Library Management System (SMARTLIB)

- Developed a full-stack web application with Admin, Staff, and Student modules using Python, Django, MySQL/SQLite.
- Implemented book issue/return, renewals, fines, and resource management features.
- Improved library operations by replacing manual workflows with a digital system.

MediPlus – Medical Appointment System

- Built a healthcare appointment platform with Admin, Doctor, and User modules using Django, SQLite, HTML, CSS, Bootstrap.
- Enabled appointment booking, doctor management, feedback, and health query handling.
- Designed responsive UI and streamlined scheduling processes.

Villa Management System

- Developed a full-stack real estate web application using Python, Django, MySQL, HTML, CSS, JavaScript, Bootstrap.
- Executed role-based modules for Admin, Builder, and User with secure authentication.
- Built features for property listings, builder approvals, booking management, and site visit scheduling.

Gym Management System

- Built a role-based gym management web application using Python, Django, SQLite, HTML, CSS, JavaScript.
 - Implemented user authentication, profile management, BMI calculation, and membership requests.
 - Developed admin workflows for trainer approvals, membership management, and trainer assignment.
 - Enabled trainers to manage client sessions, notes, and diet plan requests through dedicated dashboards.
-
